BY THE GOVERNOR OF WISCONSIN.

A Proclamation.

The custom which set apart the thirteenth day of May in each year for special commemoration of the services and sacrifices of the soldiers and sailors to whom undying valor and abiding fidelity we owe, and for the preservation of our government and the unity of our nation, has received official recognition in Wisconsin, and that day has been added to the list of legal holidays, and when it falls on Sunday, the succeeding Monday is a legal holiday.

In deference to this provision of law, and in order to secure the cooperation of all classes of citizens in the memorial services, a proclamation to that occasion, the same heretofore issued from the National and Department Headquarters of the Grand Army of the Republic, designating Saturday, May 29th, as the Memorial Day for the current year, have been modified, and the members of that organization advised to observe the succeeding Monday.

Therefore, I, WILLIAM E. SMITH, Governor of the State of Wisconsin, do recommend that the patriotic men, women and children in this State unite to keep and observe

Monday, the 31st Day of May, instant, as a memorial holiday in fact.

We owe it to ourselves, to our country, to posterity, and above all, to the memory of the patriot dead, to strew with the choicest of spring flowers the grave of every Union soldier in Wisconsin, and thereby public testimony that the names and fame of our dead heroes have not faded from our remembrance, but endure and shall endure throughout all coming years, even as the flowers appear and reappear in never-ending succession.

In witness whereof, I have hereunto set my hand and caused the great seal of the State of Wisconsin to be affixed. Done at the Capitol, in the city of Madison, thirteenth day of May, in the year of our Lord one thousand eight hundred and eighty. WILLIAM E. SMITH.

By the Governor:

HANS B. WARNER, Secretary of State.

THE REPUBLICAN NATIONAL CONVENTION.

A National Convention of the Republican party will meet at Chicago, Wednesday, the 2d day of June next, for the nomination of candidates to be supported for President and Vice President at the next election.

Republicans, and all who will co-operate with them in supporting the nominee of the party, are invited to choose two delegates from each Congressional District, four at large from each State, two from each Territory, and two from the District of Columbia, to represent them in the Convention.

J. D. CAMERON, Chairman.

THOMAS B. KEEGH, Secretary.

Logan is the "boss" politician of Illinois. He carries out his purposes with the force of a whirlwind.

It is now a question among the Blaine men whether the nomination of Grant will be by ballot or acclamation.

Tilden's "feebleness" is still on the boom. But it is the kind of feebleness that is worrying other Presidential candidates on the Democratic side.

Kellogg will do his usual. As much inclined as are the Democrats to steal seats in the House, all the Democrats in the Senate have not the cheek to unseat Kellogg.

It will probably be Grant on one ticket and Tilden on the other. In that case, Tilden will not get game money. He will be sicker than Courtney was at the Washington race.

When a United States Senator will deliberately resign his position because private life is more to be desired than public honor, then the country can take hope. Senator Gordon, of Georgia, has made an exception to the rule as given by Thomas Jefferson, that no office holder ever resigns.

If Grant be nominated why not give John Sherman the second place? It ought not to be beneath any man to accept such a position on a ticket with a man who has been commander of all the armies of the United States, who has been President eight years. The place is fit for the most ambitious.

Ex-Governor Joseph E. Brown, of Georgia, has been appointed United States Senator by Governor Colquitt, in place of Gordon, resigned. Mr. Brown was Governor of Georgia for eight years—from 1857 to 1865. After the war he became reconstructed, and made a speech in 1865 favoring the nomination of General Grant for the Presidency.

Eight tobacco factories are in operation at Rockville, N. C.

The oat crop in Florida is pronounced a failure on account of rust.

The sugar cane crop of Louisiana is said to be the finest ever known.

The lumber business of Florida is constantly assuming greater proportions.

There is enough water power in Newton county, Georgia, to run a hundred factories.

A hair pin factory in Germantown, Pa., turns out 500,000 a week. That's the kind of a factory it is.

The mechanics of Montgomery, Ala., are greatly encouraged by the prospect of a \$150,000 government building in the city.

Mendham are swarming in Long Island sound. Recently the crew of the steamer Samuel Brown took 270,000 to two hauls.

Edison's application for electric light patents indicate that he has not abandoned his purpose to produce a perfect lamp. His faith never wavers, however, much others may falter.

Two tons of bells for use upon sheep were recently sent by mail to New Mexico in four pound packages, and one firm in Boston makes a business of shipping them through the mails.

The oil mill at Little Rock is the largest institution of its kind in the world. It turns out daily 150 barrels of oil, 50 barrels of soap stock and 400 oil cakes, requiring 450 lbs. of cotton seed.

The shipment of postal cards from the Holyoke, Mass., agency are larger than at this time last year, and the total number ordered since January 1st exceeds the order of the same person in 1879 by about 10,000,000.

The rail mill of the Pennsylvania Steel Company produced recently, in less than twelve hours, 553 yards, and weighing 205,400 tons. The average time to roll each rail, for the entire twelve hours, was 46 seconds.

The Montreal Witness says that the exodus of laborers has had a tendency to raise wages in that city; that laborers are now getting \$1 per day as against 75 cents, and even less, in the corresponding period last year.

A mining company at St. Clair, Ill., dispenses with the services of a hundred men, at \$1 a day, by the use of a labor-saving machinery; but the gain is not very apparent, for they have had to employ fifty men at \$2 a day to guard the apparatus.

The Indiana state board of agriculture has voted to give to the woman's board of industry the entire control and management in the next state fair of the goods in the textile and the domestic departments. The board appropriates a thousand dollars to carry out this plan.

It is understood that Massachusetts has taken possession of a large three-story brick building in Breslau, L. I., and are putting in machinery for the manufacture of ladies' dress buttons, using as the principal material the hoofs of animals, ground, dissolved, mixed with other substances, pressed into moulds, from which they come in superior article, susceptible of high finish and polish.

Eighteen whales, mostly seals, were killed outside Provincetown harbor, Massachusetts, recently. Twenty-three have been landed the last few weeks, which will yield a total of 350 barrels of oil, with the guano produced, is valued at \$6,000. There are also ten or a dozen killed and not yet towed in, besides several which have been taken away for exhibition.

The first lady operator in the telegraph service was Miss Sarah G. Bagley, of Lowell, Massachusetts, who commenced in 1849. There was a great prejudice against employing females on the line, but a few of the relatives of the operators gradually

EXCESSIVE ANXIETY, or PROLONGED

SILLY, will produce infirmities in the Nervous

System, in proportion as the strength of the

system is expended upon the mind, in trou-

bles, so are the organs of direction, inclu-

ding the heart, as the system becomes infirm.

Every individual has some one organ weaker

than the rest and this is always the first to suffer

dering nerves, and the first to be affected.

As the nerves are the cause of all the

so-called diseases, total suspension of the

man's action of the heart, when the patient is

debilitated pronounces sudden hemorrhage and

death. My advice is to give up the

habit and those who stay deeply during long

hours, will find in the Syrup a promoter of the

power of endurance in the brain.

BRIEFLETS.

—Trinity Sunday to-morrow.

—Little "Pinsfors" at the Opera house to-night.

—Father Doyle is reported as being some better to-day.

—Bob McLean is now on the gain, and it is thought the worst is over.

—Burr Robbins dropped into the Coup show for a while yesterday afternoon.

—J. G. Bennett, the grocer, is to move his stock next week into the store lately occupied by E. V. Whiton & Co.

—The Juveniles arrived this afternoon and marched from the depot to the Myers house, headed by their drum corps.

—Miss Anna E. R. Kunkle, the elocutionist, was to give a recitation last evening at the public school entertainment in Beloit.

—Ashcraft, the furniture man, is having an addition built at the rear of his store. Increased business calls for increased room.

—Captain McLeagan, of the Beloit Guards, his wife and son, were thrown from a carriage Thursday evening, but luckily escaped any serious injury.

—Mr. W. H. Hoyt, who was run over by No. 2 engine, is rapidly gaining, and will, in all probability be out with the aid of crutches, in a week or so.

—As will be seen by a notice given elsewhere, the easterly half of what is known as the Clow Raper company's property is offered for sale by Eldredge & Fethers.

—Mrs. Noggs is now keeping house in Congressmen Williams' house, and her daughters, Mrs. Rich, of Wyoming, and Mrs. Brumley, of New York, are visiting her.

—Dillon is a funny fellow. Next Monday evening he appears again at the Opera house in "Bumps." One dose of it is said to be an instantaneous cure for the blues.

—A. P. Lovejoy has gone to Connecticut, and it is quietly whispered that he intends there to take a travelling companion for a European trip, and then return to this city and stow himself into a new home. We hope the whispering is true.

—Dr. J. B. Whiting, the Chief Marshal for Decoration day, has added to his list of aids the name of H. W. Dewey, ex-chief of the Fire Department. The choice is a good one as he is a good representative man of the Fire Department, who are to join in the parade.

—The Juvenile Pinafore company gives a charming entertainment as all will gladly testify, who greeted them when they were in the city before. Haverly never does things by halves, and never sends any poor shows along. A more happy way of spending Saturday night cannot be found than going to the Opera house this evening.

—The Sons of Temperance are to hold an open meeting in their comfortably furnished hall in Lippin's block, Monday evening, to which the public are invited. A short, literary programme has been arranged, consisting of recitations, songs, &c., and after that finished, all will be served with ice cream. An admission of 10 cents will be charged to defray the expense of the cream.

Newly furnished, everything the best, ASTOR HOUSE, NEW YORK.

KNOTS UNTIED.

In the Circuit Court there have been two more divorces granted.

Sarah Powers was released from James Powers, because of the latter's desertion.

The case of Nellie Richardson v. Will A. Richardson was disposed of in a like manner, the wife being given a divorce, and the custody of the child, the reason being her husband's desertion and failure to support.

DARIUS SEES GRANT.

The Dubuque Herald contains a lengthy account of an interview which Darius Allen had with General Grant at Galena. The interview contains a good deal about what Darius is going to do, but very little about the important query as to what Grant is going to do. The only interesting part of the conversation to our readers is that in which the General inquired of Darius whether in returning home from the Milwaukee reunion he could come by way of Janesville. Darius advocated the Janesville scheme, and showed him by the map how easily he could reach Janesville, if he wanted to.

MORE ABOUT MITCHELL.

Some further facts have been learned concerning Henry M. Mitchell, the tailor, who died by an overdose of morphine, administered by his own hand. A. & F. Sonnenborn, in whose employ he was, have received a letter from Greenville, Mich., by which it appears that Mitchell's wife lives there. Mitchell worked in that city for about five years, and last summer deserted his wife, who at the time was sick in bed, with a baby four days old. In spite of his ill-usage the wife very tenderly requests that his grave be marked so as to distinguish it.

POLICE COURT PICKINGS.

Justice Nolan had a lively forenoon of it, circus day having enlivened the business somewhat. Dave Griffin, for being drunk, was sent to jail for five days. Edward Conkin, also too much booze, had to pay \$1 and costs. Jerry Sheehan, of Johnston, like of fence, \$2 and costs. Paid. Charles Bennett, a commercial traveler, having no house to travel for, and no goods to sell, in fact a tramp, ten days in jail. William Conroy, one of the young men who assaulted young Donovan, at the cotton factory, pleaded guilty, and dropped \$5 and costs into the till.

Frank Dudley entered a complaint against William Clark, for larceny. Dudley claims that while a little upset by drink, Clark went through his pockets and took away \$6 in money, and a key ring. The examination was set for next Tuesday afternoon, and Clark for lack of companies.

UNDER THE CANVAS.

Coup's Big Show Proves in all Respects a Success—The Tents Crowd-
ed Afternoon and Evening.

Yesterday afternoon Coup's tents were filled—well filled, and last evening there was even a larger crowd, there being hardly any room left for the late comers. The show merited a crowd, for it was a good one. It is claimed with a great deal of truth, that seeing one circus is the same as seeing all of them, but anyone who stays away from Coup's on this account, will miss it badly, for his show has very many features which are decidedly novel and wholly unlike any other show. The menagerie was a good one, and could not but interest greatly all who visited it, for in this department were some marvels indeed, but in the ring performance there was still greater merit. The grand entree was worth calling grand. It was "a dazzler," and brought in a brilliant array, while the evolutions were unique and performed with military precision. From that time on to the very finish the audience were in a constant state of delight and excitement, and had a chance to enjoy the entertainment without being annoyed every minute by the interviews of lemonade peddlers and candy butchers. All of this business was conducted quietly and with little annoyance to anyone.

The riding was excellent, and the trapeze acts very good. The acrobats called forth a continual storm of applause. There were several of them who were quicker than sight itself, and it was impossible for the eye to keep up with them, in their tumblings and jumplings. Several of those telons would spin around that ring faster than a cyclone, and folk couldn't help but get excited and cheer, at what is often made rather a stupid part of the entertainment.

The Indians in their balancing and peculiar acts proved a show of themselves, and the Indians in their war paint stirred up the whole audience by the life-like scenes they presented in their wild life.

But the crowning wonder of the whole show, and that which gives it a wonderful charm, is the exhibition of trained animals. The riding goats, and riding dogs, the trained ponies, all were wonderfully entertaining. The trained dogs of Prof. Fryer acted indeed as if they had human brains. Their capture of the dog who had stolen a collar, their execution of him, by hanging, and their burial of the body, was a strange mingling of the ludicrous with the marvelous. The Broncho horses were to be seen the most wretchedly. Their military marching, their acts of leaping, rolling a barrel, firing cannon, etc., etc., can hardly be believed when seen. They certainly are the most wonderfully trained horses ever seen.

With such a show W. C. Coup's name must continue to increase in popularity, and he is justified in making a big spread of paper on the bill boards. Mr. Coup himself is a genial gentleman, who despite the rush of business matters, to which he gives his personal attention, finds time to greet cordially friends and acquaintances. A number of his old Delavan friends were in the city yesterday to greet him, and at the close of the afternoon entertainment they were invited to rally around the table spread for them in one of the tents, and a jovial reunion was had. By his visit to Janesville Mr. Coup and his show have won many more friends and admirers, who wish them a continuance of success. The show pushed on to Madison last night, and from there will work into Minnesota.

BARNUM IS COMING.

Barnum is coming with all his attractions, and in addition to exhibitions on afternoon and evening gives a free street show in the forenoon. The attractions are more numerous and varied than Barnum has heretofore, succeeded in bringing together in one combination. The show employs 400 men and 200 horses, and is subdivided into departments, each having its chief. The trip thus far has been a sort of triumphal tour, and Barnum is headed this way rejoicing over a well filled treasury. In Boston the show met with great success, and the following sketch of the performance there will give people some idea of what they may expect when it comes:

The performance opened with the entrance of 24 men and women on gaily caparisoned horses, while the elephants, camels, trained horses, etc., paraded in an outer ring. Then the living curiosities, Capt. Constantine, the tattooed Greek; Col. Gothen, the Palestine giant; Queen Mab, the twelve pound midget, and two native Zulus, were exhibited, the latter indulging in an African stick fight, and concluding by throwing assegais at a target with great skill. Signor Marcellus as a performer on horseback attracted general attention by her leaps through the hoops and balloons, while Mr. Orrin Hollis in his backbend acts of horsemanship whirled and leaped about as gracefully as though on the ground. Miss Dickrell carried off the palm as daring rider, especially in her management of six horses, while he drives through hoops and balloons and skipping over strips of buoys had a most lively effect upon spectators. Sig. Schatz, however, displayed the crowning act of performances in riding, standing upon a bareback horse, with his son Louis standing on his shoulders. He also performed many other remarkable feats, as left the ring amid applause. But in the equestrian line nothing surpassed for beauty and grace the performance of Miss Emma Lake and her beautiful chestnut, while Miss Martha and Herr Neygärd, in their double *acte de manège*, demonstrated their complete control of the horse with gratifying success. The Nelson family were one of the best cards, the athletic performance of the father and two sons being unsurpassed for their kind. Then the fire horse, Salamander, leaped through burning hoops, and a leaping horse made some astonishing jumps over a gate and several hurdles. Two of the most pleasing exhibitions were those in which six black Trakeh stallions, in charge of Mons. R. M. Dorkill, and the yoke of performing oxen, in charge of Mr. Charles White, figured. Then there was baton leaping by acrobats; Mr. John Batachelor's turning a double somersault over the backs of eight elephants. The entertainment concluded with Sazel's trial dive and cannon act. The first was fully as startling as the latter, her dive of nearly 100 feet head foremost into the net. In the cannon act she was projected fully 60 feet from a cannon, and landed unharmed in the net, very much to the relief of the spectators.

Barnum's Greatest Show on earth will visit Janesville on June 29.

QUIT THE QUID.

Mr. R. Sturtevant, who has many friends in this country, has lately published in the local paper at her home, David City, Nebraska, an earnest protest against the use of tobacco, and in closing she gives the following practical advice to tobacco users, as to how the habit may be broken:
